SUMMARY & OBJECTIVE

Enterprising web and graphic designer with a desire to create work that is innovative and new, as well as a passion for solving existing design problems. There is nothing that makes me happier than the moment when an idea takes corporal form. The thrill of rising to a challenge will always be a part of my make-up, and I enjoy testing myself on a regular basis. My talents are multi-faceted and I feel that gives me an edge when approaching design.

EDUCATION

Pratt Institute (New York, NY)

Master of Science, Communication Design • Acquired in June 2008

State University of New York at Stony Brook (Stony Brook, NY)

Bachelor of Fine Art, Studio Art • Acquired in June 2005

EXPERIENCE

Nielsen • Senior Designer • July 2011 to Present

As a Senior Designer, I work directly with the Creative Director in taking projects from concept to actualization. The majority of my work is relatively autonomous, as I have freedom to make creative decisions and problem solve on my own. I collect feedback from clients and act on resolving all issues in an efficient, and timely manner. In the event that the Creative Director is away or needs to delegate some work, I take over his role and handle all creative needs in his absence until he returns.

Nielsen IAG • Graphic Artist • August 2010 to July 2011

IAG Research • Production Artist • June 2008 to August 2010

Galison/Mudpuppy Press • Marketing Designer • May 2005 to June 2008

Freelance Designer • Jan 2005 to Present

I have been freelancing for quite some time now, doing web, print and branding work. You can see examples of my work at my portfolio site: www.threethehardway.com.

SKILLS AND INTERESTS

Excellent skills in Photoshop, Illustrator, InDesign, Dreamweaver and the entire MS Office Suite. Experienced with Flash, HTML, CSS and server side scripting. Advocate of web standards and clean, efficient design. Equally comfortable with PC and/or Mac workflows.

Traveling and learning from different cultures and people is always exciting. I have lived in Canada, The United States and Nigeria during portions of my life and consider Austin, Texas to be my hometown but thankfully, I never acquired a Texan accent outside of the occasional use of the word "Ya'll". I enjoy working with my hands and being outdoors as well as watching and playing sports, particularly football and basketball.
